AUTOMOTIVE WINDOW FILMS

Roll Size: 60" x 100 Ft.

PRO SERIES

PRO-BK 60 Pro-Series

The Professional black was the first series to be developed with chip-infusion technology. It was created by eliminating the dyeing process, which is prone to fading and then increasing the quality and density of our UV coating by implementing a 2-stage UV inhibitor process.

VLT: 05%, 20%, 35% and 50%

Roll Size: 20", 24", 36", 40", 60" x 100 Ft.

OPTICAL HYBRID

OPBL Optical Hybrid

Optical Hybrid is a 1.5 mil double ply film. Optical films are Hybrid films; it is a High-Performance Non-Metalized film. In other words, they look like Premium Plus films (no lustre), but they work like High-Performance films. These films are specially designed for high-end luxury vehicles that come with the radio antenna built in the rear windshield, to prevent the interruption of radio and GPS signalling. This film rejects up to 53% of heat.

VLT: 05%, 20%, 35%, 50% and 70%

Roll Size: 60" x 100 Ft.

ULTRA PREMIUM

UPSBL Ultra Premium

Ultra Premium Film is a Non-Reflective, 1.5 mil double-ply. It allowed setting new standards on how long color should last in a film. The original film was first tested to have a 10-year color stability track. It has a rich black look that matches factory glass better than any film on the market and continues to be one of our biggest sellers.

VLT: 05%, 20%, 35% and 50%

Roll Size: 60" x 100 Ft.

IR LITE CERAMIC FILM

SC-IRLCS30 IR LITE Ceramic Film

Nanoceramic / IR films offer the ultimate in performance for owners that want the best. Made with our market-leading IR coating technology, these films offer the highest Infra-red rejection available combined with style and performance.

VLT: 05%, 20%, 35%, 50% and 70%

Roll Size: 20", 24", 36", 40" x 100 Ft.

PREMIUM PLUS

PPBLK Premium Plus

Premium Plus is a Non-Reflective, 1 mil single ply, dyed film. It comes with Scratch Resistant Coating and is manufactured with Pressure Sensitive adhesive. Colour fading in this film is highly negligible. This film rejects up to 43% of heat, and up to 99% of Ultra Violet Rays.

VLT: 05%, 20%, 35%

Roll Size: 60" x 100 Ft.

IR LUX NANO CERAMIC

IRLUXCS80 IR LUX Nano Ceramic Film

Nano-Ceramic / IR films offer the ultimate in performance. Made with top class IR coating technology, these films offer the highest Infra-red rejection available combined with style and performance.

VLT: 05%, 20%, 35%

IR PLUS NANO CERAMIC

Roll Size: 60" x 100 Ft.

RPLUSCS IR PLUS Ceramic Film

Sun Control film division has developed the new "IR Film" for automobile application. "IR Film" is a high-performance automotive film that offers consumers high-end performance properties without the usage of the metalized film in product design.

VLT: 05%, 20%, 35%

ARCHITECTURAL WINDOW FILMS

Roll Size: 60" x 100 Ft.

Black Out

BLKOUT Black Out

Blackout films can be used very effectively to completely obscure a glazed area so that no light can go through and the view is completely obscured. This material is ideal if you require to blackout a window that is overlooked or to hide valuables from view. These films are used in Commercial and Residential windows. This film can be used for windows which are less than 60 inches. The heat rejection of this film is 85%, and the Glare reduction is 100%.

Roll Size: 60" x 100 Ft.

Bronze Frost

BRZFRST Bronze Frost

Matte Bronze Frost Window Film is designed to look like professionally frosted glass, and it's an excellent choice for windows in a bathroom, bedroom, apartment, or wherever privacy is most desired. This film can be used for windows which are less than 60 inches. The heat rejection of this film is 33%. And Glare reduction is 61%.

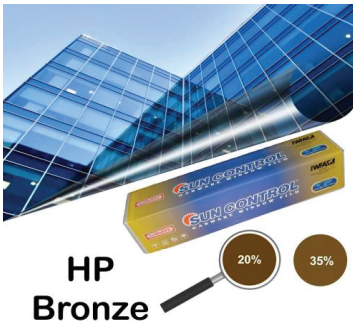

Roll Size: 60" x 100 Ft.

Dual Reflective

RFDUAL Dual Reflective

Roll Size: 60" x 100 Ft.

HP Bronze

HPBRNZ HP Bronze

High Performance is a Metalized, 1.5 mils double-ply film. While manufacturing metal, vapour pours in to increase the film's life, durability and quality. Because of the metallization process, this film rejects heat up to 65% and Ultra Violet Rays up to 99%. This film comes with Life Time Warranty of No Color fading and Peeling off.

Roll Size: 60" x 100 Ft.

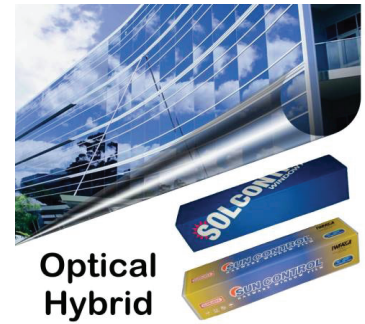

HP Natural

HPNTRL HP Natural

High Performance is a Metalized, 1.5 mils double-ply film. While manufacturing metal, vapour pours in to increase the film's life, durability and quality. Because of the metallization process, this film rejects heat up to 65% and Ultra Violet Rays up to 99%. This film comes with Life Time Warranty of No Color fading and Peeling off.

Roll Size: 60" x 100 Ft.

Optical Hybrid

OPBK Optical Hybrid

Optical films are Hybrid films which are high-performance non - metalized films. This is also a 1.5 mil thick and double ply film. These films look alike Premium Plus means no luster but works like High-Performance films.

Roll Size: 60" x 100 Ft.

Reflective Bronze

RFBR Reflective Bronze

Reflective Films have an outer shine surface that's why they are called Reflective Films or Privacy Film. Because of the shiny feature, no one can see inside. Heat rejection of these films is very high it rejects the heat up to 78%. These films are very popular to install in High Rise Building and shopping centers. The thickness of the film is 2.0 Mil. It comes in various color range.

Roll Size: 60" x 100 Ft.

Reflective Charcoal

RFCH Reflective Charcoal

Reflective Films have an outer shine surface that's why they are called Reflective Films or Privacy Films. Because of the shiny feature, no one can see inside. Heat rejection of these films is very high it rejects the heat up to 78%. These films are very popular to install in High Rise Buildings and shopping centers. The thickness of the film is 2.0 Mil. It comes in various colour ranges.

Roll Size: 60" x 100 Ft.

Reflective Gold

RFGL Reflective Gold

Reflective Films have an outer shine surface that's why they are called Reflective Films or Privacy Film. Because of the shiny feature, no one can see inside. Heat rejection of these films is very high it rejects the heat up to 78%. These films are very popular to install in High Rise Building and shopping centers. The thickness of the film is 2.0 Mil. It comes in various colour ranges. These are films are specially designed to keep the heat out or in, which works in both directions.

ARCHITECTURAL WINDOW FILMS

Roll Size: 60" x 100 Ft.

Reflective Grey

RFGR Reflective Grey

Reflective Films have an outer shine surface that's why they are called Reflective Films or Privacy Film. Because of the shiny feature, no one can see inside. Heat rejection of these films is very high it rejects the heat up to 78%. These films are very popular to install in High Rise Building and shopping centers. The thickness of the film is 2.0 Mil. It comes in various colour ranges.

Roll Size: 60" x 100 Ft.

Reflective Silver

RFSL Reflective Silver

Reflective Films have an outer shine surface that's why they are called Reflective Films or Privacy Film. Because of the shiny feature, no one can see inside. Heat rejection of these films is very high it rejects the heat up to 78%. These films are very popular to install in High Rise Building and shopping centers. The thickness of the film is 2.0 Mil. It comes in various colour ranges.

Roll Size: 60" x 100 Ft.

Reflective Silver Pro

SC-REFSP Reflective Silver Pro

Silver Reflective is the perfect film for commercial buildings that receive an excessive amount of exposure from the sun. Metalized with aluminum, it provides comfort and protection to deliver cost-efficient energy savings for building managers and owners.

Roll Size: 60" x 100 Ft.

Silver Frost

SLRFRST Silver Frost

This film can be used for windows which are less than 60 inches. The heat rejection of this film is 78%. And Glare reduction is 86%.

Roll Size: 60" x 100 Ft.

White Frost

WHTFRST White Frost

Matte White Frost Window Film is designed to look like professionally frosted glass, and it's an excellent choice for windows in a bathroom, bedroom, apartment, or wherever privacy is most desired. This film can be used for windows which are less than 60 inches. The heat rejection of this film is 78%. And Glare reduction is 86%.

Roll Size: 60" x 100 Ft.

White Out

WHTOUT White Out

White Out Window films can be used very effectively to completely obscure a glazed area so that no light can go through and the view is completely obscured. This tint material is ideal if you require to blackout a window that is overlooked or to hide valuables from view. These films used in Commercial and Residential windows. This film can be used for windows which are less than 60 inches. The heat rejection of this film is 85%, and Glare reduction is 100%.

DECORATIVE WINDOW FILMS

SC-SPF201 1/8" Frosting Strips

Vertical frost stripes, 1/8th of an inch wide, in clear film background, clean look with very good light transmission qualities.

HEAD LIGHT/TAIL LIGHT TINT

SC-VBIOHEX Bio-Hex Smoke Tint

The all-new BIO Hex+ Tints are here! These films offer the newest in manufacturing technology including a new holographic laying process that is embedded into the film during production. These new BIO HEX+ tints can be installed as a tint, lamination or color change film.

SC-VDSHT Dark Smoke Tint

VViViD+ headlight tints are finally here. We have taken all of the technologies developed in VViViD+ premium materials and have created an all-new headlight tint. This will not feel or install like the "xpo" Air-Tints.

SC-VLSHT Light Smoke Tint

VViViD+ headlight tints are finally here. We have taken all of the technologies developed in VViViD+ premium materials and have created an all new headlight tint. This will not feel or install like the "xpo" Air-Tints.

SC-VMSHT Matte Smoke Tint

VViViD+ headlight tints are finally here. We have taken all of the technologies developed in VViViD+ premium materials and have created an all-new headlight tint. This will not feel or install like the "xpo" Air-Tints.

SC-VUDS Ultimate Dark Smoke

The VViViD+ Ultimate Tints are here! These films were produced with one goal in mind; to make the best tint option available for cars. Ultimate features VViViD's Ultra-Gloss® finish, and a nano air-release so fine that it vanishes when post heated, completely eliminating the orange peel effect. The result is a finish that rivals painted headlights. Ultimate Tints comes with a protective cap which will stretch with the film as you install it.

SC-VULS Ultimate Light Smoke

The VViViD+ Ultimate Tints are here! These films were produced with one goal in mind; to make the best tint option available for cars. Ultimate features VViViD's Ultra-Gloss® finish, and a nano air-release so fine that it vanishes when post heated, completely eliminating the orange peel effect. The result is a finish that rivals painted headlights. Ultimate Tints comes with a protective cap which will stretch with the film as you install it.

PAINT PROTECTION FILMS

Paint
Protection

SC-SCPPF Sun Control Paint Protection Film

Thermoplastic polyurethane (TPU) used in product construction is an Aliphatic polycaprolactone base film. These films have a high degree of hydrolysis and UV Resistance. The Adhesive used is a crystal clear acrylic pressure sensitive which has a removable, repositionable, non-yellowing property. PPF Installation gel is recommended for enhancing workability on most difficult surfaces.

PPF-SUNXGUARD Sun X Guard

Sun X Guard Paint Protection Film is a clear polyurethane film that is designed to help protect automotive paint and other vulnerable surfaces from stone chips, scratches, bug damage, road tar stains, automotive fluid stains, and outdoor weathering.

CERAMIC COATING

SC-9HNCC 9H Nano Ceramic Coating

Its unique technology helps achieve a thick coating, protecting your car from scratches and other forms of external damage

TINTING TOOLS > HANDLED SQUEEGEES

SC-055

12" Stainless Steel Soft Squeegee

The Unger PRO 12 in. Pro Squeegee is constructed of durable stainless steel, includes a professional quality rubber blade for streak-free results. The ergonomic grip allows for comfort and control. As part of Ungers patented Connect and Clean System, this squeegee attaches to a telescopic pole (not included) for hard-to-reach window cleaning without a ladder.

GT-064

8" Pro Squeegee Deluxe

An installation squeegee as a ready-to-use assembly. Used to remove application solution from beneath the film during the installation of all flat glass film types.

GT-117A

Blue Max 5" Angle Cut

Installation squeegee for automotive and flat glass applications. These tools are excellent for water evacuation. GT-117A is a replacement blade

GT-122

Blue Max Squeegee With Handle

Ready-to-use installation squeegee uses angled Blue Max and Unger Pro handle.

GT-205

Bulldozer - I (Automotive)

Bulldozer I is used in the Automotive application. It allows you to get to those hard to reach areas, such as behind speakers, brake lights, low angles and rear windows. Features a 6" squeegee blade and is 15" in overall length

GT-2103

Clear Crush Squeegee 5" Cropped

The Clear Crush is a squeegee blade designed for users that prefer the flexibility of a soft squeegee but the stiffness of a harder squeegee. This blade is the best of both worlds. Soft enough to squeegee curved surfaces without having to apply too much pressure but stiff enough to push or pull the solution away from the job at hand.

GT-260

Flat Out 5" Yellow

The Flat Out is a Medium-Hard squeegee greatly used for removing water. The yellow Flat Out is a great squeegee for installing Flat Glass Window Films. Good flexibility, while still tough enough to push out tons of water.

The Yellow flat Squeegee is a little harder than the Orange crush and approximately equivalent in hardness to the Blue Max squeegee. They work extraordinarily on flat glass and security installations.

GT-1047

Fusion Grip Handle 5" - Long Handle)

The 5" Fusion Grip Handle is designed to be easily used with Orange Crush GT-258 and Blue Max Angle Cut GT-117A blades and to optimize your leverage in removing mounting solutions. Great for high-performance automotive films and smaller residential windows. Long Handle will give more reach and comfort grip. If you are using Under Pro Handles and forcing, Bending and Squeezing Blue Max or Orange Crush Blades, then you should try Fusion Grip Handles, Made in the USA

GT-1058

5" Fusion Grip Short Handle

The 5" Fusion Grip Handle is designed to be easily used with Orange Crush GT-258 and Blue Max Angle Cut GT-117A blades and to optimize your leverage in removing mounting solutions. Great for high-performance automotive films and smaller residential windows. Short Handle gives you more closer grip for more control and pressure. If you are using Under Pro Handles and forcing, Bending and Squeezing Blue Max or Orange Crush Blades, then you should try Fusion Grip Handles, Made in the USA

TINTING TOOLS > HANDLED SQUEEGEES

GT-037

Fusion Hand Dee Tool

The Fusion Hand Dee Tool is a MAGNETIC handle that can accommodate any 5"x2" squeegee. Equipped with a removable "jaw" and a rounded grip to fit perfectly in your hand.

Use with any of these 5 squeegees: i.e Orange Crush - GT-258, Clear Crush - GT-2103, Blue Max Angle Cut - GT-117A and Flat Out Yellow - GT-260

SC-122

Generic Blue Squeegee with Handle

Ready-to-use installation Generic Blue Squeegee, softer than original blue max squeegee, but still can be used as a replacement blade with this.

SC153Y

Grip - N - Glide

Handle squeegee with rubber blade for car wrapping / tinting / cleaning

1.Unique groove handle design makes the grip feel more comfortable and Grip wrapped with anti-skid glue is better to work.

2.The squeegee can wipe out more than 95% of the water, it is very useful.

3.Rubber material protects the surface from leaving marks during use.

GT-258

Orange Crush 5" Cropped

The 5" Cropped Orange Crush squeegee is a very popular choice of professionals to help expel water from under the film while doing Automotive or Flat Glass Film Installation but to keeping its strength. The Cropped Orange Crush conforms to curved glass. Use this blade in the Fusion Grip Handle GT-1047, Made in the USA

GT-050A

Unger Squeegee Handle (Screw)

A modified Unger handle that has proven results for maximum water extraction. This handle also works excellent with the Super Clear Max, Blue Max and Orange Crush Squeegees.

TINTING TOOLS > HARD CARDS

GT-079 and GT-080
4" 3M Squeegee

A reusable flexible squeegee type applicator, when hand applying film or pre-mask, this tool is the perfect solution for FRP or other textured surfaces.

GT-1064
8" Pro Squeegee Deluxe

Four-inch hard card with two ridges or "bumps." One edge is wrapped in felt.

SC-1064S
4" White Card Suede Felt

This White Card squeegee has both, regular edge and Suede Felt Edges. It can be used in both wet and dry applications. High-Quality Suede Felt Edge and last longer than ordinary squeegees. Useful for either window film, paint protection film, decals, wrap film.

GT-087-6GR
6" Gray Lidco Squeegee

GT-086-6W
6" White Hard Card Squeegee

This 6" White Hard Card is a wider version of Teflon Hard Cards. This versatile hard card can be used for heat shrinking, bumping edges, and chizling. Many tinters cut these cards into various shapes to even make them more useful. This is one tool that qualifies as a window tinting "must-have".

GT-087
Lidco Squeegee

Combination squeegee / hard card used as a finishing tool during window film installation. When wrapped in a layer of cotton fabric or lint-free paper towel it can be used for wicking water out along borders (after installation) or used for sweeping film flush to the glass during heat forming procedures.

GT-083YL
Lil' Chizler Lidco Soft Yellow

Lidco Soft Yellow Chizler. Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles.

GT-083
Lil' Chizler

The Lil' Chizler is the original that everyone has known for years. Great for working out fingers on window film the Lil' Chizler also works well in removing decals. This is a must-have in any window tinter's tool pouch.

GT-086
Teflon Hard Card Squeegee

The standard 4" Version of the window film industry standard in Teflon cards. This versatile hard card can be used for heat shrinking, bumping edges and chizling. Many tinters's cut these cards into various shapes to even make them more useful. This is one tool that qualifies as a window tinting "must-have"

TINTING TOOLS > KNIVES AND BLADES

GT-127
OLFA "A-1" Knife

Used for film pattern cutting and trimming. It comes with a carbide blade. Features: a moulded plastic handle for maximum control and comfort

GT-126
OLFA Stainless Steel "Silver" Knife

Olfa Silver Stainless Steel Knife is excellent for use in moist environments where rust is a concern. The ultra-slim design of this knife makes it a popular choice with professional tradespeople. Features a slide lock and pocket clip/blade snapper. Good for cutting wallpaper, caulking, window films and Vinyl, etc. multi-step production process for amazing sharpness and superior edge retention.

GT-226
OLFA "Silver 2" Auto Lock Knife

Significantly improved over the "Olfa Silver." Features right or left-handed use, blade position auto-lock, and one-segment click action.

GT-027
NT Pro A-1 "Red Dot" Knife

The NT Pro A-1P Knife or RED DOT is the choice of professionals everywhere left or right-handed use. Equipped with Auto-Locking blade slide and multiple clicks to get the proper blade length.

GT-1051
OLFA SAC-1 Stainless Steel Graphic Knife

This stainless steel graphics cutter features an ultra-slim design and an acute angle blade making it a popular choice with professional graphic artists and sign-making professionals. Great for paint protection application. Replacement blades are GT1052.

SC-127
OLFA "Silver 2" Auto Lock Knife

Used for film pattern cutting and trimming. It comes with Carbide Blade. Features: a moulded plastic handle for maximum control and comfort.

GT-124
Plastic Utility Knife

Used for film pattern cutting and trimming. It comes with a carbide blade.

SC-CN001

Snitty Vinyl Cutter

1. New safety sheet cutter. Ideal for use in the warehouse or by sign makers and wide format printers.
 2. This handy cutter is much easier to cut out the size of the vinyl wrap that you need.
 3. Very useful and convenient vinyl car wrapping application tool;
 4. Designed for cutting the carbon fiber vinyl, window films, PVC films, wallpaper
 5. The blade is changeable, replace with double edge razor blades when the blade is blunt
- Snitty size: 10*6*1cm/ 4*2.6*0.4 inches, Snitty weight:22 gram
- Fine workmanship, superior quality, firmly durable and convenient to use
- Sharp blades cut vinyl or thin material very easy and won't scratch during installation.
- Each blade have 4 cutting corners, you can change another cutting corner if not so sharp

GT-115

OLFA Stainless Steel Snap Blades 10 Pack

The industry standard when it comes to snap blades for film and pattern cutting. 13-Segment, 9mm snap-off stainless steel blade for working in wet environments, such as wallpaper installation. Made of stainless steel with a double-honed blade for unparalleled sharpness and superior edge retention. The exact 59-degree edge angle optimizes cutting power and minimizes blade breakage. The blades are designed to cut through wallpaper, window film, tint application, paint, caulking, packaging, tape, shrink wrap, Cardboard, and other materials. 50-Pack of blades. Use in most standard duty knives. Pack of 10.

GT-116

OLFA Stainless Steel Snap Blades

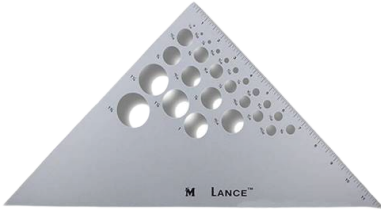

Stainless steel snap-off blades for use in moist environments (wallpapering, window films, etc.) where rust is a concern. Made of high-quality Japanese grade stainless steel and designed for unparalleled sharpness and superior edge retention. Long-lasting and durable. a new sharp edge with just a snap.

GT-1052

OLFA 30° Degree Carbon Snap Blades

Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip. Fits the GT1051. Pack of 10.

GT-187
12" Triangle

45/90 Triangle with Circle Templates and 12" Ruler

GT-190
5 Way Trim Guide

Use this tool as a trim guide or wrap in paper towels and use it as a bump tool.

GT-077
Film Opaquer Pen-"Broad Point"

A Tool used by automotive window tint and residential window film installers to hide fine line mistakes from cutting the window film which causes excess light intrusion at the film edge. A good "oops" pen that will help save you money

GT-076
Film Opaquer Pen-"Thin Point"

A Tool used by automotive window tint and residential window film installers to hide fine line mistakes from cutting the window film which causes excess light intrusion at the film edge. A good "oops" pen that will help save you money.

GT-212
1" Blade Ade

Plastic handle that can accommodate any 1" blade. **Single Edge Blades GT-140** can be used as refill blades.

GT-138
Heavy Duty 1" Razor Scraper

Retractable safety scraper, intermediate blade position keeps the blade from sliding out while in use. **Single Edge Blades GT-140** can be used as refill blades.

GT138HYDE
HYDE 1" Razor Scraper

A slim-downed version of the 1" HD Razor Scraper. Holds any 1" blade.

GT-107
6" Triumph Scraper

This is the new and improved version of the slide covering Triumph. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover, which is safer and more convenient, especially when doing ladder work. Great for regular window cleaning, but not recommended for stripping off the old film. Use the **6" Triumph Scraper Blades GT108** replacement blades

GT-109
1" Clip Scraper

This effective scraper will accommodate standard or stainless steel single-edge blades as well as **GT-139 Plastic Razor Blades**.

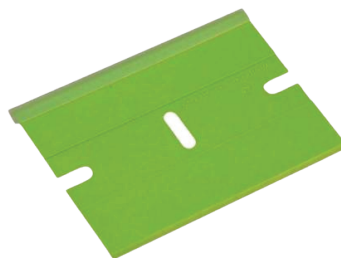

GT-1049
Gator Blade I

Features two opposing arched blades. The narrower blade allows for more scraping pressure around rear defrosters and for adhesive removal on surfaces where metallic razor blades scratch surfaces.

GT-1050
Gator Blade II

Features three functional edges. The first 3.5 linear edge is great for lifting bottom rollup gaskets while tucking the film safely beneath to reduce peeling. A long slender acute point works for reaching into tight corners of quarter windows and behind the front and rear gaskets of roll-downs. The opposing 18 radius edge is also 3.5 wide and also functions well for lifting and tucking. The 1.95 third edge features a 4 radius blade that fits tighter curvature situations and is a good pressure concentration blade.

GT-994
Lidco Big Blade (3" X 4")

Jumbo size Plastic Razor Blade is perfect for cleaning and removing the film.

GT-140
Single Edge Blades I

100-Piece Single Edge Razor Blades Always use a sharp new blade when scraping the window to prevent scratches. Perfect for removing paint, stickers and glue from glass and tile.

GT-37

Stainless Steel 1" Single Edge Blades

These Extra Sharp Uncoated GEM single-edge blades are part of our premium single-edge blade line. These razor blades are constructed from stainless steel honed for sharpness with aluminum backing and offer high-quality steel in the most common single-edge razor blade shape. These single-edge blades are a favourite among customers who want the benefits of a stainless steel razor blade. Each shipped blade is protected in shelling paper.

SC2023

Double Edge Plastic Blades

A safe plastic razor blade is the ideal tool to scrape unwanted materials on any surface. Comes with 100 pieces. Double-edged razor design, safe to use. Fits all standard razor blade tools. Perfect for vinyl wrapping applications, removing stickers, decals, labels, latex paint drips, window tints and more. Razor blade Size: 1.5" * 0.8" (40x20mm)

GT-108

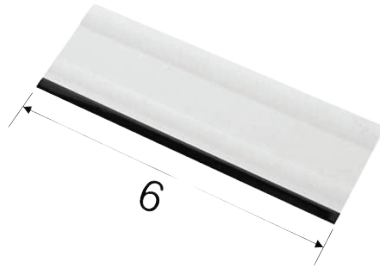

HYDE 1" Razor Scraper

6" Black Triumph Carbon Scraper Blades (GT-108) comes in a 25-pack. Triumph blades work well on flat glass such as residential or commercial windows.

GT-149
12" Block Squeegee

Combination squeegee/hard card used for finishing during film installation. It can be cut to various angle shapes to reach tight sharp corners.

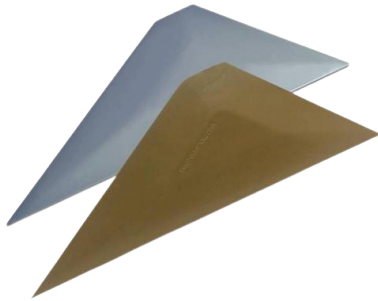

GT-2003
EZ Reach (Original)

This is back by popular demand! New part number but the same shape and design. Stop cutting down hard card squeegees and use this versatile tool instead. These triangular cards with flat edges are perfect for putting down those little corners of the film in hard to access areas. This gold version is flex firm.

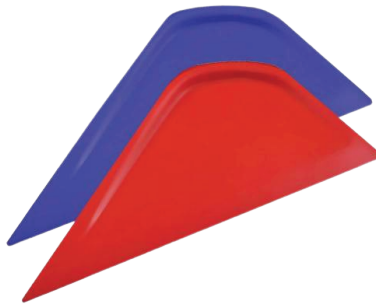

GT-2003
EZ Reach (Original)

This is back by popular demand! New part number but the same shape and design. Stop cutting down hard card squeegees and use this versatile tool instead. These triangular cards with flat edges are perfect for putting down those little corners of the film in hard to access areas. This gold version is flex firm.

GT-200
1EZ Reach (Ultra)

This is back by popular demand! New part number but the same shape and design. Stop cutting down hard card squeegees and use this versatile tool instead. These triangular cards with flat edges are perfect for putting down those little corners of the film in hard to access areas. This gold version is flex firm.

GT-044
Little Foot

This squeegee measures about 6 (15 cm) along the usable edge. The pointed edge of this tool allows the installer to squeegee in very tight areas. The Little Foot has plenty of room to keep a good grip on the squeegee. Available in Red and Blue

SC-A19
Mini Squeegee Yellow

1. This versatile tool is perfectly suited for a variety of applications in wrapping around your car or home!
2. Perfectly suited for getting into tight or delicate areas, especially tight spaces on your car's body
3. The precision plastic edge is sharp enough to work as a cutting or scoring tool
4. Small and hard enough to work anywhere, excellent at fine detail work
5. Extremely lightweight and portable

GT-254
Power Stroke Blue

The original handheld moulded squeegee, designed to fit comfortably in your hand. Measures 5.7" from tip to tip. The Blue Power Stroke has a durometer for the ultimate in moisture removal, especially for sputtered films.

GT-255
Power Stroke Red

The original handheld moulded squeegee, designed to fit comfortably in your hand. Measures 5.7" from tip to tip. The Red Power Stroke is great for the final pass on metal films.

GT-256
Power Stroke Yellow

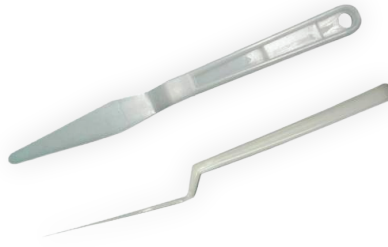

The original handheld moulded squeegee, designed to fit comfortably in your hand. Measures 5.7" from tip to tip. The Yellow Power Stroke works well with dyed films and the first pass on metal films.

TINTING TOOLS > SQUEEGEE ESSENTIALS

GT-151
Quick Foot

A stiff squeegee with a handle for jobs that require medium reach. Slim and trim with an unwrapped handle.

SC-2029
Shank

A brand new tool to the window tint industry. This "Shank" may at first glance resemble an ordinary plastic knife, but it is definitely a tough, useful tucking tool. This new tool has an offset installation tip for reaching behind gaskets while keeping your hands out of the way. It is 7" in overall length with approximately 3" of flexible blade. Made of lightweight, yet extremely durable plastic, it is great for tucking film behind those tight door gaskets

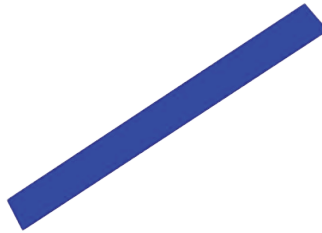

GT-092
Shuttle

A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

GT-207
Side Swiper

The Side Swiper can be purchased with the blade (GT207). This squeegee is ideal for getting behind brake lights and in lower areas of rear windows.

GT-118-6
Side Swiper Refill Squeegee Blade

This is a replacement rubber squeegee blade for Side Swiper GT-207 - SIDE SWIPER. This squeegee is ideal for getting behind brake lights and in lower areas of rear windows.

GT-091
Slammer

Used for cleaning corners and along with gaskets, wicking water out along borders and easily reaches rear windows and sharp-angled corners.

GT-040
Slim Foot

Modeled after the Big Foot Squeegee, the slim foot has a slender design than can reach into tighter openings. This no rib squeegee helps reach behind brake lights and has a vinyl grip for secure handling.

SC-151
Small Quick Foot

This Small Quick Foot (Yellow) has a soft edge and a sharp point which makes it perfect for working on window films and on Vinyl Wraps in some tricky places. And the small size makes it very flexible and easy to handle.

GT-1022
Stroke Doctor

This handled squeegee allows you to reach areas behind brake lights and lower rear windows. Has a longer handle than the GT207 & GT208. Replacement blades for the Stroke Doctor can be purchased as part number GT1022B

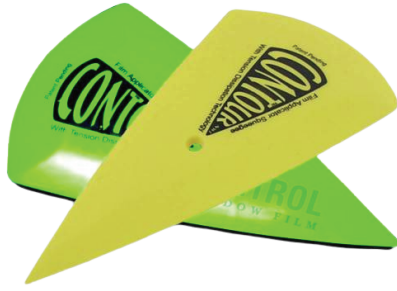

GT-202

The Conqueror

The Conqueror is the original corner reach tool. Features a soft squeegee blade along one edge and point hard card tips on the ends making it a versatile staple to any tool kit.

Blue Conqueror (GT202B)

Same as the original Conqueror (GT202) with a slightly harder durometer for more squeegeeing power.

GT-201

The Contour

It gives you curves where you need them. Designed to match all those concave surfaces installers see every day. A great fit for window film, paint protection or vinyl installs. The Contour hugs surface evenly while spreading radial pressure outward for quick film adhesion. The elongated triangular shape gets into all those hard-to-reach areas.

GT-178

The Reach Tool

This tool is designed to effectively squeegee water from the most difficult places to reach. THE REACH allows you to squeegee water from the bottom of the back window or windshield, with ease. This tool is 16 3/4 inches in length and built with a double rubber blade on each side.

GT-1042

Titan Squeegee

The overall length of 14 3/4 inches allows for great access to those hard to reach rear windows. The Titan's rigid structure allows more removal of mounting solution and the finger placement at the top of the Titan allows for better control and comfort. The handle is designed to easily lift inner and upper door seals.

GT-2042

Tri-Edge

Tri-Edge Blue is a new tool in the industry with the latest technology that helps apply window film with ease. Its patented design high-quality material makes this tool one of a kind. Its precision angles and comfort grip will allow the user to reach those challenging areas to achieve perfection. This tool has been analyzed and closely inspected to ensure that the finish is smooth, no rougher edges

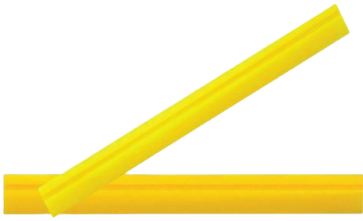

Tri-Edge Yellow (GT-2042)

Tri-Edge Yellow is our next-level tool. We have turned up the strength of the already great design. For those installers that prefer a slightly harder material, Tri-Edge Yellow will be sure to meet your needs.

Tri-Edge Orange (GT-2042)

Tri-Edge Orange is our most rigid tool yet. Look no further for the perfect tool to finish the job. Offering both strength and support, the Tri-Edge Orange has strong edges that will finish off those hard to smooth creases

TINTING TOOLS > TUBE SQUEEGEES

GT-147
18-1/2" Yellow Turbo Squeegee

Economy size squeegee usually cut to shorter 4-5" lengths before use. Used for removal of application solution during the installation process.

SC-236-2
2" Yellow Turbo Squeegee

SC-236-2 inch

GT-146
28" Black Smooth Squeegee

Squeegee tool used for glass cleaning, sometimes called the "Smoothie" Economy size (28") usually cut into smaller lengths before use.

GT-119
4" Black Smooth Tube Squeegee

Squeegee tool used for glass cleaning, Plastic Tube is installed on the top of the squeegee for easy grip.

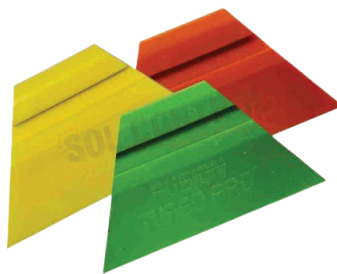

GT-236
5-1/2" Yellow Turbo Squeegee

An installation squeegee used to remove application solutions from beneath the film during the installation of all auto films. Blade only, no handle.

SC-146
Black Smooth Squeegee

Black Soft Squeegee tool used for glass cleaning.

GT-2083
Fusion Turbo Pro 3 1/2"

80 durometer. Recommended for paint protection films and films with a softer hard coat.

Fusion Turbo Pro Orange (GT-2083O)

92 durometer. (Same durometer as Orange Crush) Recommended for most window films and vinyl applications.

Fusion Turbo Pro Yellow (GT-2083Y)

85 durometer. Recommended for vinyl applications and areas that require more pressure.

GT-2086
Fusion Turbo Pro Squeegee 5 1/2"

80 durometer. Recommended for paint protection films and films with a softer hard coat.

Fusion Turbo Pro Orange (GT-2086O)

92 durometer. (Same durometer as Orange Crush) Recommended for most window films and vinyl applications.

Fusion Turbo Pro Pink (GT-2086P)

77 durometer. Super soft, recommended for paint protection films and cleaning.

Fusion Turbo Pro Yellow (GT-2086Y)

85 durometer. Recommended for vinyl applications and areas that require more pressure.

GT-981

Do Not Roll Down Stickers

Do Not Roll Down Sticker comes in 250, 500, 1000 stickers per roll. Use on the roll down window switches after the film installations. Features low-tack adhesive.

GT-250

Ferno 300 Dual Temp Heat Gun

TWO TEMPERATURE SETTINGS RANGING FROM 750°F TO 1100°F
ERGONOMIC DESIGN FOR COMFORT AND BALANCE TO REDUCE FATIGUE
ERGONOMIC DESIGN ALLOWS FOR EXTENDED COMFORT AND BALANCE TO REDUCE FATIGUE WHILE WORKING
FEATURES AN INTEGRATED STAND FOR SAFE, HANDS-FREE OPERATION
SIDEBARS PREVENT THE HOT NOZZLE FROM TOUCHING YOUR WORK SURFACE
UTILIZES A HANGING LOOP FOR CONVENIENT STORAGE IN YOUR WORKSHOP, GARAGE, OR PEG WALL

GT-194

Gasket Push Stick

Gasket Push Stick used for tight window glass gasket.

GT-068

Hard Card Sharpener

A must-have to keep the hard card and other squeegee edges smooth. Simply slide the squeegee edge along the tray to smooth out rough edges. Uses a 1" single edge blade.

GT-176

Waist Apron

Heavy-duty waist apron for easy access to tools while on the job. It has 3 pockets to keep your tool organized, middle small pocket to keep your knife safe and handy.

SC-1071

ATR Adhesive Remover

ATR ADHESIVE SOLUTION is a super-action adhesive remover that is the most powerful in its class! Dissolves adhesive on contact. ATR Solution is the perfect product to help with the removal of window film adhesive. ATR Solution is effective on normal window film adhesive as well as more difficult applications.

SC-CB100

Clay Bar

Sun X Guard Blue Clay Bar is made with synthetic clay which can remove stubborn stains on car paint quickly without damage due to its soft texture and natural slickness to make perfect preparation to wax or polish. Besides, it is easy to use and won't be destroyed even it's fall on the ground, you can reuse it after rinsing it.

GT-1008

Impact Jr. Pump Spray

The Impact Jr Pump-Up sprayer is lightweight and easy to use with convenient 48 oz. capacity. This bottle also features increased chemical resistance with Viton seals and the metal plunger assembly allows for increased durability.

This sprayer also has an ergonomic thumb lock and adjustable spray nozzle for convenience. Unlike many other, less expensive pump sprayers that break too quickly, this rugged pump up sprayer holds up to the toughest jobs.

GT-162P

Pink Adhesive Remover

Please Note: Because of Chemical Hazard we do not ship Pink Adhesive Remover. This product is available in the store to pick up only.

Pink Adhesive Remover GT-162P:

A gallon of concentrated adhesive remover. Which use to remove the old tint easily.

GT-096

Poly Spray 2

This pressurized spray bottle holds more solution than the 32-ounce bottles and reduces "finger-fatigue" by eliminating the need for pumping while spraying via a simple trigger. Handy for large windows and long-duration sprays. Has an adjustable spray nozzle. (1.25 liters)

GT-097 Zep

Professional Sprayer

Zep Commercial 32 ounce Professional spray bottle features an ergonomic trigger and adjustable nozzle that sprays up to 30 feet. The sprayer is ideal for commercial use as well as for cleaning around the home. Graduated measurement marks make it perfect for concentrates.

GT-090

Spray Master

An overall heavy-duty sprayer, this spray bottle comes with a 5-year warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 ounces.

GT-1071

Super Stripper Adhesive Remover

A gallon of highly concentrated, ready-to-use adhesive remover.

GT-209

The Scrubber

Used to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable standard White Scrub Pads (GT085) cut 2"x3". This tool is 3" wide by 15" long.

3MES3950

3M Edge Sealer 3950

3M™ Edge Sealer can be applied around exposed edges of compatible films to help prevent the film from lifting due to environmental exposure or cleaning.

3M™ Edge Sealer helps minimize the adverse effects of rigorous use or prolonged or severe exposure conditions by providing water and contaminant tight seal between a graphic film and substrate.

GT-1065

4" Lidco Felt Sleeves

A felt wrap for any 4" hard card squeegee.

GT-078

Black Acrylic Felt 1.5"

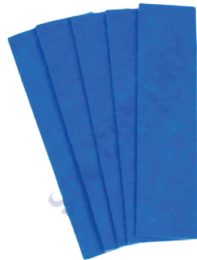

Black acrylic felt is used on automotive roll down windows. The felt is applied to the window frame as the window is rolled down across the window. This prevents the felt from being rubbed off the window frame. The felt is designed to avoid scratching the window frame.

GT-2017

3M Knife-Less Tape

The knifeless tape has a high-strength filament that acts as the cutting device. The tape/filament is laid out on the vehicle and the bulk vinyl material is installed over the tape/filament. Then, the filament is pulled through the material leaving behind the desired design. The edge is clean and sharp just like a knife cut but without the risk of cutting the paint.

SC-MonkeyStripes

4" Monkey Stripes

These pre-cut buffers fit any standard 4" squeegee. They are far superior to standard felt strips and will help prevent scratches to the wrap material during installation. Give your hard plastic squeegees a soft and smooth side with the Monkey Strip. Note: This buffer comes with a self-adhesive back that should stick to any flat squeegee surface.

GT-1000

Mactac

Recommended for paint protection or vinyl graphic installations. The soft felt is designed to avoid scratching.

GT-1010

3M Wet Or Dry Squeegee

The Impact Jr Pump-Up sprayer is lightweight and easy to use with convenient 48 oz. capacity. This bottle also features increased chemical resistance with Viton seals and the metal plunger assembly allows for increased durability.

This sprayer also has an ergonomic thumb lock and adjustable spray nozzle for convenience. Unlike many other, less expensive pump sprayers that break too quickly, this rugged pump up sprayer holds up to the toughest jobs.

SC-WR11-A

Antistatic Gloves

Antistatic Professional Vinyl Wrapping Gloves

Comfort-Fit

Easy Washable in Washing Machine

SC-MAG2

Magnets - Car Wrapping

Support magnets for your graphics and vehicle wraps. Great for holding the vinyl in place when wrapping sections. Great for planning and prep before installation. Rubber coated for grip and reduced abrasion which will protect the vinyl and surface from scuffing.

SC-MWS-2

Micro Edge Magnetic Wrap Sticks

The vinyl wrap sticks set helps to achieve a complete wrapping task, ideal for window film, vinyl wraps, delicate surfaces car wraps, vehicle lettering & graphics, decals, sign making, window tint, protective paint film installing.

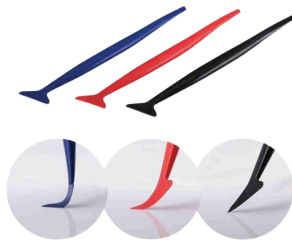

Perfect for wrapping the auto edges or corners to complete full wraps.

The hidden strong magnet inside every vinyl stick squeegee help wrap more efficiently and conveniently and is hard to lose.

Our stick squeegee is handy, easy to carry and perfect for small curve areas.

Simple to follow directions and contours, make vinyl wrap stickers smoother without damaging.

Pick up stick squeegee together to work prettier.

SC-MWS-3

Micro Edge Wrapping Sticks

Include IPC Blue Soft Squeegee, IPC Media Hardness Red Squeegee, IPC Hard Black Squeegee

Professional window tint application tool set include 3 kinds of hardness

The black (hard) squeegee is good for applying films at narrow flat edges.

The Red (Medium) squeegee is designed to seamlessly apply film at narrow curves and edges.

The Blue (softer) squeegee is ideal for film application in narrow, concave parts of the car.

They enable you to achieve a superb finish, even over the most intricate application areas.

GT-1070F

Platinum Smart Card With Felt Edge

GT-237

Sunny Tucker

This wrap tool provides multi-functionality use by allowing the installer to reach edges and body lines like never before. This tool is a must have if you apply any graphics to challenging surfaces.

SC-BPOP

Vinyl Bubble Popper Pen Tool

The tip of the air release pin pen is a thin steel needle; You can use it to weed out the vinyl in craft projects or release the bubbles on the film accurately to defoam; This pin pen is also suitable for removing residual bubbles when installing car window film, or when installing wallpaper and other adhesive paper.

Craft vinyl pen tool adopts the pen-like design, light-weight so that you can use it as comfortably as holding a pen.

Air release weeding pin pen tool adopts retractable design, it will reduce the possibility of scratching you and protect your safety.

Because the tip of the stainless steel point retractable air release tool is very thin, when you use it to pierce the surface of the object, it will not leave obvious piercing traces, at the same time, it can achieve the purpose of removing the trapped air; It is a practical tool.

SC-WRGII

Wrap Gloves

A glove made for wrapping films of all types. Will not leave residue or lint on adhesive.

Breathable and the most comfortable wrapping glove you will ever try!
